Please do not remove the dumpster yet.
I want the city to remove the boards on my windows so that I can open the windows.
The mice have made fumes and it is difficult to breathe with no windows open on the main floor.
I opened the windows on the second floor and I bought 4 pounds of mouse poison that I chopped into 1 inch blocks and placed all over the basement, main and second floor.
I will continue to bag up refuse and place in dumpster. My bungalow got too hot and I could not breathe.
The inspectors are going to check and verify that the dumpster is being used and they will not call in a staff to do the clean-out as long as I am doing it. They agreed that it would take more time for me to do alone.
Thank you all a lot,

Richard Ayd

Thank you for the dumpster.
It took me all day Wednesday to get the back door pried open.

I volunteer at the Thursday community lunch at Zion Lutheran Church directly across from my bungalow from 1-3 pm. My case manager Sheila Greaser from MHR often meets with me there and I think that Claire is coming on Thursday also. Please feel free to attend this free lunch Thursday from 1-3.

Hello Richard. Your friend Claire called. I would like an opportunity to meet with both of you and discuss a possible plan. Let me know what you think

I will do all of the work cleaning up myself once the boards are removed from the back door and I am allowed to be working inside everyday. I am requesting that you order a small dumpster to be placed in my driveway.

Pastor John Marboe from Zion Lutheran Church is going to act as my Project Manager. My brother Andrew and all of my family only criticize and ridicule me to the point of making me cry and shut down.

Good Morning Richard,

Is there an update as to whether your brother is going to be able to assist you?

I believe that the City is looking for you to submit a 'work plan' for how the cleanup is going to happen.

Potentially hiring a cleanup company to do the work for you. If you hired a company, I think the City is likely to allow you to move forward with getting the work done.

Please share your thoughts about getting a professional company to assist.
