Subject: vacant house hearing - 802 Mound St

Greetings,

I am writing regarding the property at 802 Mound st. We love the Mounds Park neighborhood and the wonderful community in the area. This property, however, has been problematic as long as we have been here. I was told by a neighbor that this would be a good opportunity to voice concerns we have regarding this property. It is my preference to remain anonymous as I am concerned with retaliation by the residents at the property.

The main problems with the property include:

-frequent domestic disturbances and fighting, Yelling and swearing are common, and weapons have been involved in past incidents.

-multiple out of control dogs which are constantly off leash and escape from the fenced area of the yard; The dogs bark frequently, and are aggressive towards passers-by, other dogs, and especially children.

-there are always large piles of garbage around the house, and frequent fires where trash and plastic are burned

- a continuous flow of vehicles coming and going, often parking illegally in front of fire hydrants, in the middle of the street, in the yard/boulevard,

These problems are aspects of a larger pattern of being inconsiderate to the surrounding neighborhood, and it makes the neighborhood a worse place for everyone else to live in.

Sincerely,

Concerned neighbors
