

Hey, Russ - I just wanted to let you know I support the proposed ordinance to require cigars to be sold in packs of five if they're cheaper than \$2.10 each. With cigarette taxes way up in Minnesota, the tobacco companies are scrambling for ways to get kids and low-income people hooked, and these cheap cigars (often flavored like chocolate, grape, etc.) are a great way to do it. There's research showing that raising prices effectively keeps tobacco out of the hands of both these groups. Hope you will vote in favor of 14-34. Thanks!
