FOR DISCUSSION

- 19 [ABZA 15-2](#) Public hearing to consider the appeal of Rafic Chehouri to a decision of the Board of Zoning Appeals denying a request for a front yard setback variance in order to enlarge the existing retail building at 945 Grand Avenue.

Councilmember Thune asked for the City Attorney's opinion. Deputy City Attorney Jerry Hendrickson said Council members had been sent an opinion on whether a variance could be conditioned on design standards. he said the answer was yes, but first the Council would have to find error in findings of the Board of Zoning Appeals, and the conditions had to be related to the impact of the variance. He said it was also pointed out in the written opinion that time was running out for a decision, and that another way to address the issue would be through rezoning, which would come with its own design standards. In response to a question from Councilmember Thune, he said a decision by the Council to grant the appeal would be precedent-setting.

Councilmember Thune moved to deny the appeal.

Councilmember Brendmoen said it sounded like there was a way for the appellant to get where he wanted to go by applying to rezone the property to T2, which would not require signatures from neighbors and would include design standards. She said it seemed like that was a great solution.
