So she is making progress!! The question is she has 3 rose bushes, however 2 of them look like some kind of wild rose tree that is about 6 feet tall that she needs to continue to prune! I told her she could re-plant in the rear yard?? She filed the appeal to keep the large rose trees on the boulevard. The plant growth in the front yard is taller than the roof line on the front of the home and difficult to navigate through the yard. The side of the home has plants growing in the sidewalk. I advised her to get house numbers so we can see them and to remove all metal poles on the boulevard and yard to prevent serious injury if someone would fall. There are more photos in AMANDA but the ones attached will give you a good idea of the condition.

Please advise. Thanks!

Lisa Martin
