

The SafeCity Project is an initiative begun in 2011 as a partnership of the Frogtown Community House & Garden Project, Kingdom Come and Koinonia MN to build relationships between police, individuals, businesses and community groups in the Frogtown neighborhood that will lead to Transformation in the City.

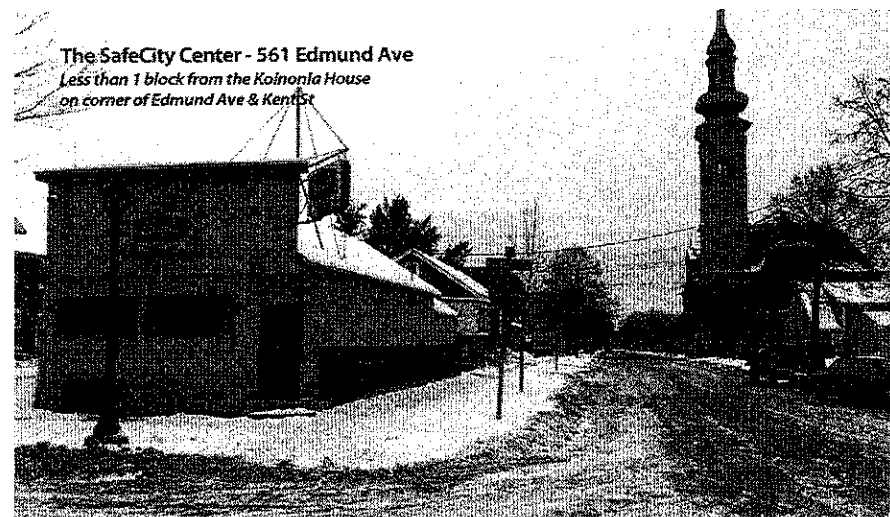

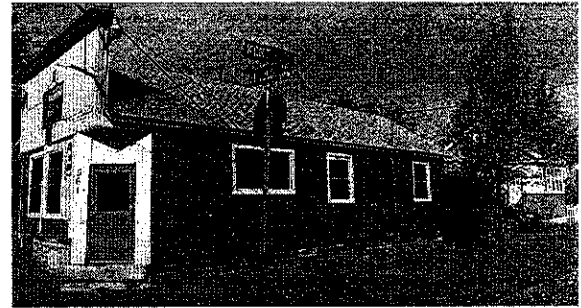

In 2015 momentum has grown significantly due in large part to community based monthly gatherings at the Western District Police Station, intentional strategic networking, the completion of key projects and the committed day to day efforts of the SafeCity Leadership Training Program participants and other partners. being present and active. This year we began the development of a "Tactical Mindset" in being aware of challenges along with intentionally viewing and acting upon them as opportunities to initiate change.

Community Outreach Day is on Thursday each week. We distribute food to our neighbors and visit area shelters with outreach teams. We have opportunities to help, meet needs and consult when we do home visits or they drop by the Freedom center.

"On behalf of the Western District, I really want to thank you. Your generosity does not go unnoticed and affirms our partnership, which I look forward to growing. We are grateful to have you in the district and that we are partners in our continued efforts to make living in the City a better place."
