95 decibels, 50 ft from the source of the tent contained locations 11pm until 1am

10. Briefly describe the noise source and equipment involved:

DJ Stands are your basic setup at Eagle Street Grill, Cossetta's and Tom Reid's

Set up in the tent includes the following:

4x JBL P X515 Speakers
- Powered by 2 Crown Macro-Tech 12000i Amplifiers

2x JBL V X915S 15" High Power Flying Subwoofers
- Driver & Passenger Side
- Powered by 1 Crown Macro-Tech 12000i Amplifier

11. Describe the steps that will be taken to minimize the noise levels

As the organizer of street parties on this footprint since 2011, Visit Saint Paul is very cognizant of the neighbors near the event location including those in Irvine Park and Irvine Park Towers as well as residents on Chestnut Street behind Cossetta's. We will utilize a decibel reader and do readings throughout the day and evening. Production crews will have decibel readers to ensure they are staying below the agreed upon decibel levels. As the organization with the name on the sound variance for the full event, Visit Saint Paul will be sure all entities are aware of sound level restrictions.

12. Briefly state reason for seeking variance:

In conjunction with the first ever Wild Home Opener Street Party, Visit Saint Paul is seeking the variance to provide outdoor music for fans enjoying the street party

13. Attach site diagram showing location of noise source(s), streets, stages, tents, etc. (If there will be amplified sound, indicate location and direction that all speakers will be facing.)

See attached

Blue is the parking lot locations

Red is the DJ locations at each end and in front of Cossetta's

Red arrows indicate flow of sound.
