Hello I would like to write to object to the liquor licensing proposal 20110002908 for Saint Thomas University. I live near the campus and we already endure a lot of noise and disruption related to students drinking on and off campus. It is common for us to find empty beer bottles in our lawn and garbage after a game. We have also endured people being rude to my family, blocking driveways and parking illegally, driving recklessly, and using inappropriate language around my children, Before and after games at the stadium. I think selling alcohol will make these problems much worse.

Thank you for your consideration,

Nancy Garrett, 2221 Riverwood Pl., Saint Paul, MN 55104
