Subject: Driveway issue - 1453 Danforth St.

Marcia & Mai –

John Larson called about the extension he received to complete his driveway last year (RLH FCO 12-521), and is in need of an additional couple of months to complete. He did complete a new driveway; however upon inspection, inspector Wayne Spiering, told him that it needs to be 4 feet further away from the neighbor's property line. He came up with a new plan and spoke with his asphalt contractor, who told him that in order to successfully cut the section out that needs to be removed, it would be best to wait until September or October due to the current high temps of the asphalt. All of this being said, he is asking for an additional couple of months to complete his driveway. As of today, there was no report from the inspector in Legistar.

After speaking with Marcia, I informed Mr. Larson that Marcia was going to request a staff report next Tuesday and review the file before contacting him with any further information.
