From: Mai Her Checker Bar Inc.

Per your request, the recording machine only allowed me to view as far as 12 days back. I closed the shop for 3 days and had just come back from my son's graduation in Columbus, Georgia. I do not know what happened to the recording machine but I had set up an appointment with LC Camera to have him take a look at. He was the person who installed all the cameras. The recording machine was working 2 years ago when I took over this place. LC Camera and Sgt. Steve Parson reviewed it. It supposed to have 3 months of recording memory. I will email or call you as soon as I get a review from LC Camera. Thank you.
