Marcia,

Attached is a video of the meter that was found frozen at 416 Hope St. in St. Paul, I asked Al to put the meter on the bench and pressurize it. We did not tighten any bolts or alter the meter, we removed it from the property and brought it in and put it on the bench, you can see that the rate meter shows 0.000 even though the water is dripping from the bottom plate.

Please call when you have a chance and I will walk you through the photos and video.

Jerry
