1746 sims Ave variance.

Here is the basics, I have 2 rooms that are 14 ft 6 inches, the apex is 7 ft 7 inches in the middle.

In room one, at the 6 ft mark, I have 7 ft 7 inches between the 6 ft heights so that is 53% of the room is at 6 ft tall or higher.

In room two, at the 6 ft mark, I have 7 ft 6 inches between the 6 ft heights so that is 52% of the room is at 6 ft tall or higher.

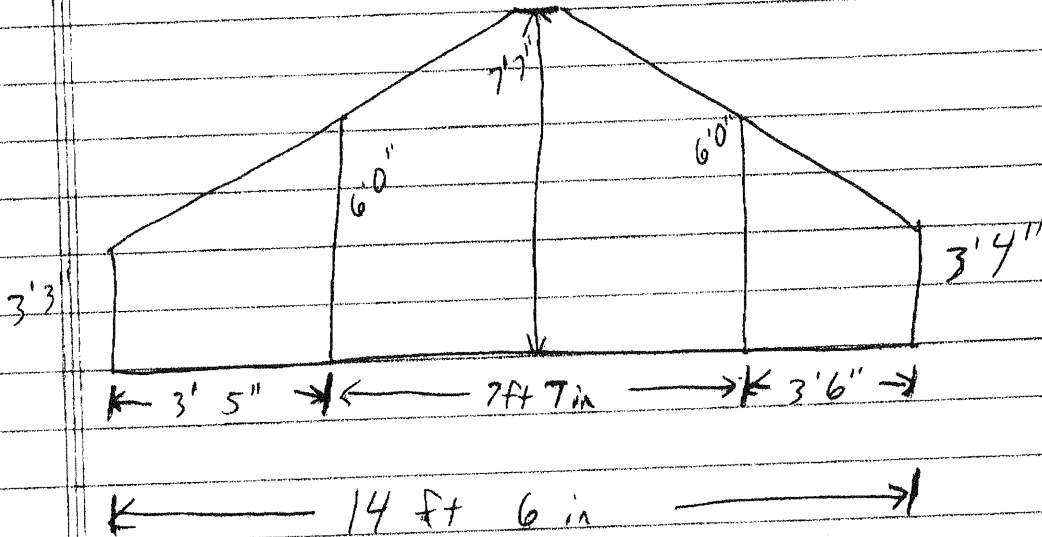

Please see drawing, not to scale.
