

**The 2011 Residential Street Vitality Project** is construction of new bituminous surface streets with concrete curb and gutter, concrete driveway aprons and outwalks, boulevards landscaped with sod and trees, a new lantern style lighting system, associated public art and doing all other necessary work to complete said project. Also, the appropriate sanitary sewer repairs will be made, lead water services in the right-of-way will be replaced. Storm and sanitary reconnections and/or water service repairs will be made as may be requested by the property affected property owners.

The streets to be improved are as follows:
