Subject: gas meter barrier install at 670 5th St. E., Saint Paul, MN

Gas meter barrier required by inspections. Must be done by Xcel Energy. Please find their response below. I contacted them a while back.

We have asked Xcel Energy to install barrier per your report. Please see below. They advised it can only be done in the spring. Would you like us to try to secure it ourselves? With what materials?

Thank you

Anna

Ms. Ovsyannikova,

I had a foreman validate the need is for two ballards to protect the meter. The address will be added to a list for installation later this year when the weather is more conducive for pouring concrete.

Please continue to use caution when driving past the meter set.

Please let us know if plans for this home change.

Jeff Schmidt

Subject: Customer question regarding gas meter barrier install at 670 5th St. E., Saint Paul, MN

Dear Mr. Schmidt,

Re: Account number 4487296 – 670 5th St. E., Saint Paul, MN

We received the email below from the owner of 670 5th St. E., Saint Paul, MN asking about a gas meter barrier install order for the address. The owner previously called on 01/19/2015 and there was a gas emergency order put in to have a barrier installed, PTJ 398141106, but that order says it was referred to gas construction. Could you confirm if that work has been completed yet?

Thank you for any help you can provide.

Sincerely,

Matt F.
