Dear Mr. Doneux:

Thank you for your input on the City's Stormwater Permit Annual Report. We appreciate your observations that the report content has improved in numerous areas.

Your suggestions on how to further enhance the City's Annual Report with additional detail will be taken into consideration as we track activity throughout the current calendar year and prepare the next annual report. The report, comments and response to comments will be submitted to the Saint Paul City Council to be adopted by resolution. This information will then be forwarded to the Minnesota Pollution Control Agency.
