Dear Elizabeth:

On July 25th, 2016, the Macalester-Groveland Community Council (MGCC) Transportation Committee held a public meeting to consider proposed changes to the recently adopted modifications to Permit Parking Area 22. Prior to the meeting, the MGCC provided mailed notification of the meeting to all current households within Permit Parking Area 22 as well as the recently added properties on Cleveland Ave.

Several residents of Permit Parking Area 22 were in attendance and all spoke in favor of the proposed change. After consideration of neighborhood input and discussion, the Macalester-Groveland Community Council Transportation Committee unanimously passed the following resolution:

*****"The Macalester-Groveland Community Council Transportation Committee supports the proposed change to the recently adopted modifications to Permit Parking Area 22 of reducing permits for 57-75 and 89-115 Cleveland from 6 total to 2 total permits per household."**

Please feel free to contact me with any questions or to discuss further.

Sincerely,

Liz Boyer
Executive Director
