Subject: Seal Coating Assessment on 442 Livingston

Think Before You Click: This email originated outside our organization.

This is Scott Wilson and my property is at 442 Livingston, which is at the connection of Congress, Cesar Chavez & Livingston. There is a tremendous amount of commercial traffic here. I do not believe I should have to pay these assessments.

Street maintenance should part of the City Budget not an expense added to the property owners.

I did not ask for this to be done and it is not clear that anything is any better.

Also i have lived on this property for the last 50 years and have noticed there is now a higher volume of traffic.

Since the apartment building (88 CesarChavez) was developed, we now have semitrucks regularly driving and parking on the street.
