

MISSISSIPPI RIVER

KAPOSIA LANDING PARK

Industrial Use & Private Property Boundary

Proposed Fence Location - Segment A

- Provides closure of industrial area relative to trail
- Fence connects to existing impound lot fence then parallels private property boundary to the railroad.
- High-security fence type: 6' chain link with privacy slats & barbs
- Alter ownership & maintenance

Proposed Fence Location - Segment B

- Provides closure of industrial area relative to trail
- Fence connects to bridge Pier 4 to close gap
- Precedent railroad fence type: 6' standard chain link
- Dakota County ownership & maintenance

Construction access route

Existing fence location: Gerdeau Steel and Impound Lot.

Additional tree and shrub vegetation, berms, and restoration work is anticipated in this area through Dakota County Naturalist program after the trail is constructed.

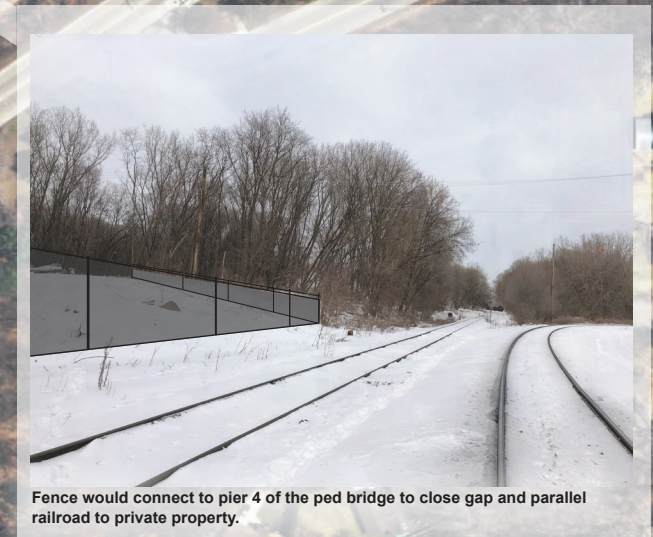

Pedestrian Bridge

Robert Piram Regional Trail

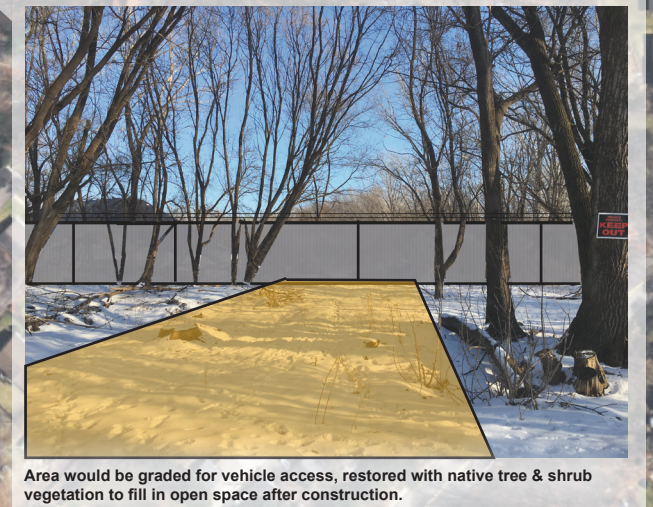

CONCORD ST.

BIRCHER AVE.

BUTLER AVE.

Fence would connect to pier 4 of the ped bridge to close gap and parallel railroad to private property.

Area would be graded for vehicle access, restored with native tree & shrub vegetation to fill in open space after construction.
