Hello fabulous City Council Members

Please do not renew the license of this business that creates so much violence in our neighborhood.

I personally know one young man who was there with work friends after a golf game who was permanently brain injured when the bouncer beat him to a pulp with a golf club.

There have multiple shootings, car chases, fighting involving fists, clubs, knives and guns, Not to mention the exploitation of women.

The regular fist fights and gun incidents are not welcome in any neighborhood and make our already crime stressed area that much worse.

It has been an ongoing issue for decades and it is time to finally shut them down and help the work being done to make our neighborhoods safer.

Thank you

Miki
