RE: Notice of Public Hearing
Letter dated June 30, 2015

ATTN: Barb McMonigal-St. Dennis

I received a letter entitled "Notice of Public Hearing" dated June 30, 2015. The letter refers to the noise level of variance equipment that will be used as part of the construction of a pipeline under Highway 94.

Because I work a third shift I have concerns regarding the noise level that could impact the time frame that I usually use for rest, relaxation and sleep. The hours of construction as stated in the letter are from 7:00 a.m to 7:00 p.m. which covers in part the hours (7:00 a.m until 3:30 p.m.) that I usually reserve as my hours of rest/sleep.

I understand efforts are being made to control the noise level however the effectiveness of the sound system does concern me greatly, hence my letter.

Because of my work schedule I will not be able to attend the public hearing meeting so please review my concerns carefully and if possible present them during the meeting.

Your attention to this matter is greatly appreciated.

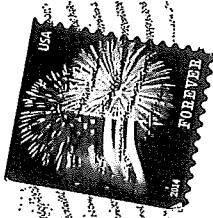

Respectfully submitted,
Janette Frelix-Gray
