Advised of Cat 2 Vac. bldg. status and requirements related to this status. Told him there are potential issues including but not limited to zoning, building, mechanical/ventilation, fire, SAC, and EH that would need to be reviewed. Suggested he first prepare a detailed written business plan stating all activities that would take place on-site (including frequency of events that would be held here), a floorplan showing existing conditions, and conceptual floorplans for the various layouts (gym, sporting event(s) (including chair placement), etc.). Told him to call back once written plans are completed so that a meeting could be scheduled with DSI staff to conduct a preliminary review of his proposal. Also suggested he might want to consult with a designer (i.e., architect) to get an idea of other potential issues.

			09/15/98 COMPLAINANT WAS HERE THIS MORNING AND HE SAID THE DAIRY AND DELI COOLERS WERE NOT OPERATING PROPERLY. THE DELI COOLER HAD DELI SANDWICHES IN IT BUT THEY WERE VERY WARM. THE THERMOMETER READ OVER 60 DEGREES F. PLEASE CHECK TO SEE WHAT THEY DID WITH THESE SANDWICHES. HE THINKS THEY WERE SELLING THEM AT THESE HIGH TEMPERATURES. [ROY]
