FIRE INSPECTION CORRECTION NOTICE

RE: 998 7th st e

Dear Property Representative:

Your building was inspected on February 24, 2026, in response to a referral. You are hereby notified that the following deficiency list must be corrected immediately.

A reinspection will take place on April 2nd at 10:30am

Failure to comply may result in a criminal citation or the revocation of the Fire Certificate of Occupancy. The Saint Paul Legislative Code requires that no building shall be occupied without a Fire Certificate of Occupancy. The code also provides for the assessment of additional re-inspection fees.

YOU WILL BE RESPONSIBLE FOR NOTIFYING TENANTS IF ANY OF THE FOLLOWING LIST OF DEFICIENCIES ARE THEIR RESPONSIBILITY.
DEFICIENCY LIST

1. SPLC 40.06 - Uncertified portions of the building must not be occupied until inspected and approved by this office. – **Unit 2 is uncertified for reasons including, but not limited to: no heat, no running hot or cold water.**
2. MSFC 505.1 New and existing buildings shall be provided with *approved* address identification. The address identification shall be legible and placed in a position that is

visible from the street or road fronting the property. Address identification characters shall contrast with their background. Address numbers shall be Arabic numbers or alphabetical letters. Numbers shall not be spelled out. Each character shall be not less than 4 inches (102 mm) high with a minimum stroke width of 1/2 inch (12.7 mm).

A. Post address numbers on building

B. Post apartment numbers on respective doors.

3. SPLC 34.11 (6) Every residential building or residential portion of a building shall have heating facilities that are properly installed, safely maintained and in good working condition, and capable of safely and adequately heating all habitable rooms, bathrooms and toilet rooms located therein to a temperature of at least sixty-eight (68) degrees Fahrenheit with an outside temperature of minus twenty (-20) degrees Fahrenheit. The owner shall maintain a minimum room temperature of sixty-eight (68) degrees Fahrenheit. Installation, repair or alteration of heating facilities, space heaters and water heating facilities shall be in accordance with the Legislative Code, Chapter 33, and the state mechanical code. – **Heat is nonfunctional in units 1 and 2. Restore heating. This work SHALL require permits.**
4. SPLC 34.14 (1) Any appliance, mechanical equipment and/or mechanical system shall be maintained. - **Boiler heating system has been offline since December.**

Saint Paul Legislative Code authorizes this inspection and collection of inspection fees. For forms, fee schedule, inspection handouts, or information on some of the violations contained in this report, please visit our web page at: <http://www.stpaul.gov/cofo>

You have the right to appeal these orders to the Legislative Hearing Officer. Applications for appeals may be obtained at the Office of the City Clerk, 310 City Hall, City/County Courthouse, 15 W Kellogg Blvd, Saint Paul MN 55102 Phone: (651-266-8585) and must be filed within 10 days of the date of this order.

If you have any questions, email me at: Alex.Dravis@ci.stpaul.mn.us or call me at 651-266-9149 between 7:30 a.m. - 9:00 a.m. Please help to make Saint Paul a safer place in which to live and work.

Sincerely,

Alex Dravis
Fire Safety Inspector

Subject: Request for Modification of Inspection Correction Notice.

The correction notice issued by the St. Paul Department of Safety Inspections on February 24, 2026, orders us to immediately restore boiler system heat to Units 1 & 2 at 998 7th St. E.

Background:

On January 21, 2026, my husband Allan and I, owners of the triplex at 998 7th St. became aware that the boiler for the hot water heating system in our triplex had shut down, which caused frozen heating pipes in the building.

When the pipes thawed, we were able to restore hot water heat to Unit 3 because these pipes were unbroken. Broken pipes have prevented us from restoring hot water heat to Units 1 and 2, which are currently being heated solely by temporary electric space heaters. Unit 2 is vacant; Unit 1 is occupied.

On February 25, 2026 (the day after the Correction Notice was issued, our general contractor, Legacy Custom Builders LLC, sent an email to Keith Demarest which makes clear that work on the heat restoration to Units 1 and 2 cannot begin until the tenant in Unit 1 moves out, since the work will greatly impact Unit 1 due to the need to: pull the heat registers throughout Unit 1 to fix pipe breaks; remove Unit 1's bedroom ceiling to access a broken pipe; remove the water-saturated insulation above Unit 1's bedroom ceiling (caused by that broken pipe) to avoid mold growth - visible signs of moisture and mold starting to grow around Unit 1's bedroom ceiling light junction box. Our contractor states this work cannot be efficiently and safely performed due to many health liabilities if the tenant and her baby were to remain in Unit 1 during the construction process.

We hereby request issuance of an amended Correction Notice, or other remedy, to grant the following relief:

Item No. 4 should be corrected or deleted. Our boiler heating system has not been offline since December. It was not until January 21, 2026, that the tenant in Unit 3 complained she had no heat and we discovered the boiler had shut down. This misstatement could cause our insurance company to deny our claim on the basis of negligence. Furthermore, our boiler heating system has been supplying heat to Unit 3 since February 18, 2026, prior to the issuance of the Correction Notice. Therefore, Item No.4 should be deleted or modified to reflect factual information.

Items No. 2 or No. 3 should be modified. Item No. 2 of the Correction Notice uncertifies Unit 2 for occupancy due to lack of heat and water.

Likewise, Unit 1 should be uncertified for lack of heat. Alternatively, the last sentence of Item No. 3 should be amended to state: **This work necessitates vacating unit 1 and SHALL require permits.**

Unless Unit 1 is uncertified or the language in No. 3 is modified as requested, the tenant in Unit 1 will continue to have a valid argument that she can disregard the 30-day written notice we served upon her on January 29, 2026, which terminated her month-to-month lease and required that she vacate Unit 1 by midnight February 28, 2026. The tenant's argument that she does not need to vacate Unit 1 until at least April 31, 2026, is based on SPLC Sec. 193A.05(b)(2)h, *Rehabilitation and Renovation*, which requires a landlord to provide the tenant with a 90-day written notice to vacate a unit that will be uninhabitable for the duration of a rehabilitation or renovation.

Uncertifying Unit 1 or adding the requested language to Item No. 3 will enable us to rely on SPLC Sec. 193A.05(b)(2)i, *Complying with a Government Order* that necessitates vacating the dwelling unit as a result of a violation of the SPLC or other provision of law. This SPLC subsection does not specify the length of a written notice to vacate, so the notice period would be governed by the lease signed by the tenant in Unit 1, which provides that if the apartment is damaged so that it is unfit to live in, we can immediately cancel the lease.

Therefore, either Item No. 2 should uncertify Unit 1 or the last sentence of Item No. 3 should be amended as suggested above, so we can require the tenant to immediately vacate Unit 1 and enable our contractor to begin work to restore boiler heat to Units 1 and 2 as soon as possible.

In addition, **we request the reinspection date be postponed until May 15**, as we may need to file an eviction action to remove this tenant, a process which could take until mid-April to resolve.

In summary, as more fully explained above, we request the issuance of an amended Correction Notice to correct or delete No. 4, to modify either Nos. 2 or 3, and to postpone the reinspection date. Alternatively, we request the grant of any other remedy to provide the relief requested.

Thank you for your consideration,

Bernetta Miller, 651-470-9681
