

Dear Mayor Coleman,

This email was sent back in December 2012, with no reply. I am assuming this is the stand your office is taking on this issue, "no response is your best response."

I am stating, as a lifetime resident of St. Paul, your office needs to open its eyes and ears to the public on other options with this Ball Park downtown. I have seen too many plans in St. Paul turn into my hard earned tax dollars wasted.

My suggestion is to look into the option of reusing the Gillette structure. In my industry, construction/remodeling, everything is going green. Which means try to reuse what you have efficiently and at a profit.

I would love to carry on with my option, but I think you get the message.

Thank you  
Michael Roberto

I am a small business owner in St. Paul, have been for 20 years. Recently, I have been following the plans for a ball park downtown. This project seems to need more input from the public. Please direct me to more detailed information concerning the public's input on this project. I would also like to know what is the process to gain access to the Gillette building.

Thank you.

Mike Roberto
