**Subject:** Comment on Griggs/Scheffer Area Paving and Lighting Project...

I want to comment that the final estimates on this project seems to be coming in higher than originally planned. Given the circumstances with so many people unemployed and the economy taking a hit, I think the city should reevaluate this or get a more competitive bid.

I suggest putting this on pause for 1 year when hopefully things might turn back to normal and people are hopefully in better financial shape.

Thank you,
