White Squirrel Outdoor Service Area Detail and Operation

The White Squirrel intends to operate an permanent outdoor service space with liquor service. The area will be located directly behind the building and will have table seating for 24 guests on the patio. We are requesting that this be added to our licenses which have been applied for.

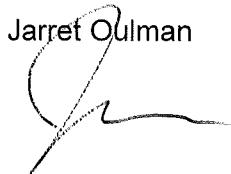

There will be permanently constructed partitions delineating the service area from the parking lot. The Patio area is otherwise surrounded by existing exterior walls of the adjacent buildings.

The outdoor service area will be in operation during the businesses regular operating hours. We are proposing these hours to be 3pm until 2am Monday through Sunday. Staff will constantly monitor the patio while serving patrons on the patio with table service and clearing/cleaning tables. There will be no performance or amplified audio offered on the outdoor patio area.

We do appreciate and recognize the good faith support offered to us by our direct neighbors and intend to reciprocate that support for them when any impactful issues arise to find solutions together.

On November 18th, 29th, 22nd and 24th, I went to each applicable address within 300 feet of 974 W 7th (from the list provided by DSI) and knocked on their doors. Some people I was unable to reach as they were not home or accessible. I successfully reached out to a few others I could find on social media as well.
