This statement itemizes your actual escrow account transactions since your previous analysis statement or initial disclosure. The projections from your previous escrow analysis are to the left of the actual payments, disbursements and escrow balance. By comparing the actual payments to the previous projections listed, you can determine where a difference may have occurred.

An asterisk (\*) indicates a difference from the projected activity in either the amount or date. When applicable, the letter "E" beside an amount indicates that a payment or disbursement has not yet occurred, but is estimated to occur as shown.
