

## SUBJECT

**BOARD RESOLUTION NO. 16-647**  
Pertaining to a schedule of charges for street restoration work.

## BACKGROUND INFORMATION

Staff is seeking approval of a resolution that recommends the city council adopt a schedule of charges for SPRWS street restoration work.

On December 8, 2015, the Board approved Resolution No. 15-2141, which recommended that the city council approve an Ordinance that amends Chapter 87 of the Legislative Code to provide for the use of a schedule of charges for street restoration work. The Ordinance received final adoption by city council on January 27, 2016 and became effective February 26, 2016.

Staff has performed a statistical analysis of past costs and from that analysis has determined that the attached schedule of charges would reflect those costs.

Amended Section 87.13(b) of the Saint Paul Legislative Code stipulates that this schedule of charges be established in the same manner as water rates; by city council resolution following recommendation by the Board of Water Commissioners and a public hearing.

Upon approval of this resolution, the proposed schedule charges will be forwarded to the Saint Paul City Council for public hearing and action.

See attached proposed Restoration Schedule Charges and resolution.

## RECOMMENDATION

Approval is recommended.
