Subject: RE: Revised Application Sound Level Variance Application Minnesota AIDS Project May 17, 2015

Hello Barb-

My apologies for that error. The address of the noise source is at the intersection of Mississippi River Boulevard North and Ford Parkway. The noise source is a radio van without broadcast.

Regards,

Beth

Hello Beth Megas,

This Department of Safety and Inspections (DSI) Office has received a revised Sound Level Variance (SLV) application from the Minnesota AIDS Project today, April 20, 2015. On the application, under the address of the noise source, is written: the "Intersection of Mississippi River Boulevard North and Cretin Avenue". Both of these run North-South in direction. Are you referring to the intersection of Mississippi River Boulevard North and Ford Pkwy, or some other intersection?

I left you a phone message this afternoon about this as well. Please specify.

Thank you,

Barb

Barbara McMonigal-St. Dennis

Subject: Revised Application

Hi Barb-

I'm sending you a revised application in the case that my previous email wasn't sufficient. Can you please confirm you received this?

Thanks!

Beth
