RE: RE-INSPECTION FIRE CERTIFICATE OF OCCUPANCY WITH DEFICIENCIES  
1021 CARROLL AVE

Ref. # 107863

Dear Property Representative:

Your building was re-inspected for the Fire Certificate of Occupancy on January 3, 2011. Approval for occupancy will be granted upon compliance with the following deficiency list. The items on the list must be corrected immediately. **A reinspection will be made on January 19, 2011 at 2:00 pm.**

Failure to comply may result in a criminal citation or the revocation of the Fire Certificate of Occupancy. The Saint Paul Legislative Code requires that no building be occupied without a Fire Certificate of Occupancy. The code also provides for the assessment of additional reinspection fees.

#### DEFICIENCY LIST

### Correction Notice

To Whom It May Concern:

The referenced installation has been found not in compliance and cannot be accepted for the following reasons:

- 1) The IFGC vent tables require double-wall vent connector from the furnace to the vertical vent. This would require a double-wall wye-branch fitting to accommodate the water heater venting.
- 2) A metallic chimney liner is required for this installation. Since the liner isn't visible at the top of the tile lined chimney, a letter, on company stationery must be submitted to our office which verifies (in writing) that one exists.
- 3) The combustion air inlet hood is within 3 ft. of the dryer vent termination. Relocate, to maintain the 3 ft. minimum.

\*\*\* please call the mechanical inspector to arrange his inspection

Please correct the above conditions and notify me in writing within 30 days that the job is ready for re-inspection. If you have any questions, please call me at the number below.
