Attachments: Cunningham, Theresa A..vcf

I am writing in response to your notification of license application for the referenced business. I would like to lodge a formal complaint regarding the amount of litter that is discarded in my neighborhood due to the location of this business. I live at 966 Aurora Ave. (around the corner from this business) and litter blows from that corner all up and down and along University and up and down all the adjacent streets including Aurora, Chatsworth, Fuller. I have asked Superamerica's employees to pick up the trash; however, they will only pick up trash in front of their business when it is clear that their customers are littering. How can we resolve this problem? This is a huge problem in my neighborhood. Trash and litter is everywhere. There are no trash receptacles along the street or at bus stops. When there were trash bins they were never emptied and litter always overflowed from the receptacles. Get out of our neighborhood or clean up after your customers.

RE: License Number: 2010004256

Dear Ms. Rozek:

Concerning the above license number, we aren't against new ownership, but we would like to see some additional License Conditions. They are as follows:

Continue to close from 10:00 P.M. to 6:00 A.M. daily

Place signs in parking lot prohibiting loud stereos & radios

Shovel sidewalks & crosswalks after snow falls & snow plowing

No gangs, large groups, drug dealers, johns & prostitutes congregating in and around parking lot or building.

Call police as necessary.(At one time we were told clerks were told not to call police unless absolutely necessary).

Thank you for the above considerations in this matter.

Sincerely,

Edouarda Opatrny & Jean Opatrny
