ORDINANCES

An ordinance is a city law enacted by the City Council. It is read at four separate council meetings and becomes effective after passage by the Council and 30 days after publication in the Saint Paul Legal Ledger. Public hearings on ordinances are held at the third reading.

Final Adoption

- 11 [Ord 13-22](#) Amending Legislative Code Chapters 60, 62, 63, 64, 65, and 66 pertaining to industrial zoning districts and regulation of industrial uses. (Public hearings held May 15 and July 17; amended and laid over August 7 and 14)
- Councilmember Thune moved an amendment striking all references to industrial uses for intermediate-sized metal shredders. He said the original language about metal shredders was included for a specific project which did not go forward. Council President Lantry explained that the matter would lie over for another week before final adoption but did not need another public hearing.*
- Councilmember Tolbert asked whether this change had been run by the group that had worked to develop the ordinance. Councilmember Stark said it was outside of the scope of what that group had been working on. Councilmember Thune said it was a housekeeping issue. Council President Lantry clarified that metal shredders were not being removed as an industrial use, but references to intermediate metal shredders, which were added for a specific project, were being removed because the project did not happen. Deputy City Attorney Gerald Hendrickson confirmed that it was not a substantive change.*
- Councilmember Tolbert reiterated his concerns and said introducing amendments at the table was not a good practice especially for items that had already had a public hearing and with none of the stakeholders present. Alan Torstenson, Planning and Economic Development, echoed the characterization and explanation made by Mr. Hendrickson and Council President Lantry. He said Councilmember Thune had spoken to him about the change, and after consulting the Port Authority and others it was determined that the change would have no practical effect on existing businesses.*
