Subject: Municipally-Led Project- Confirmation of County Participation
Date: Friday, November 30, 2018 8:37:24 AM
Attachments: [St. Paul Confirmation Letter 11-29-18.doc](#)

Hi, Paul:

The attached letter is confirmation of the County's participation in the various municipally-led projects the City has proposed. You'll note that we have taken a kind of "wait and see" position on the Johnson Parkway and Como Avenue trail projects. This is not intended to indicate that we don't support them, but rather that we want our participation to be better defined through the design process before putting them in the TIP. We look forward to working with City staff on these projects.

In addition to those projects listed above, you submitted two additional federally-funded trail projects, On Como Avenue, between Raymond Avenue and Hamline Avenue and on Johnson Parkway, between Burns Avenue and Phalen Parkway. Because of the scope of these projects, we want to work with the City as their design proceeds to determine the exact scope of work prior to including them in our program. We look forward to working with the City on these projects and are committed to continuing to cooperate to improve our shared transportation systems.

Sincerely,
