Keith,

We will need to reschedule the inspection for tomorrow at 11 AM. Tenants are both working and I and my son have been called out of town for a family emergency. May I suggest, as a way to save time and city recourses that we schedule a time after May 1, 2026 and do a complete inspection including the exterior items so we can finish this up in one fell swoop?

Please confirm as communication from you about inspections has been spotty at best.

Thank you and let me know your thoughts.

Ron Staeheli
