Hello, Councilmember Thao -

I just wanted to write to voice my support for the soccer stadium. I think it's a great idea. I do hope, however, that the stadium plans include supports for workers whose jobs may be lost if businesses close or moved. I'd hate to see people unemployed because of the stadium and hope that the businesses that are currently in that block will either be incorporated into the new development or will be helped to relocate nearby.

Thanks!
