Re: Assessment # 115138

File # 19093 1171 Lafond Ave

Although we have been assured all of this project will be completed by Thanksgiving, including, curbs, sidewalks, lighting and street paving, I believe no interest should be assessed on the amount until 2012 payable in 2013. If all the work had been completed in May that would be a different story. This interest is quite high and 30 days is not enough time to put together the payment especially when the sewer charges will also be coming up.

Please note NOT to ratify this assessment for this year 2011.
