409. Broker represents both the Seller(s) and the Buyer(s) of the Property involved in this transaction, which creates a
 410. dual agency. This means that Broker and its salespersons owe fiduciary duties to both Seller(s) and Buyer(s). Because
 411. the parties may have conflicting interests, Broker and its salespersons are prohibited from advocating exclusively for
 412. either party. Broker cannot act as a dual agent in this transaction without the consent of both Seller(s) and Buyer(s).
 413. Seller(s) and Buyer(s) acknowledge that

414. (1) confidential information communicated to Broker which regards price, terms, or motivation to buy or sell will

102. F. RADON DISCLOSURE:

103. (The following Seller disclosure satisfies MN Statute 144.496.)

104. **RADON WARNING STATEMENT:** The Minnesota Department of Health strongly recommends that ALL
105. homebuyers have an indoor radon test performed prior to purchase or taking occupancy, and recommends having
106. the radon levels mitigated if elevated radon concentrations are found. Elevated radon concentrations can easily
107. be reduced by a qualified, certified, or licensed, if applicable, radon mitigator.

108. Every buyer of any interest in residential real property is notified that the property may present exposure to
109. dangerous levels of indoor radon gas that may place occupants at risk of developing radon-induced lung cancer.
110. Radon, a Class A human carcinogen, is the leading cause of lung cancer in nonsmokers and the second leading
111. cause overall. The seller of any interest in residential real property is required to provide the buyer with any
112. information on radon test results of the dwelling.

113. **RADON IN REAL ESTATE:** By signing this Statement, Buyer hereby acknowledges receipt of the Minnesota

116. A seller who fails to disclose the information required under MN Statute 144.496, and is aware of material facts
117. pertaining to radon concentrations in the property, is liable to the Buyer. A buyer who is injured by a violation of MN
118. Statute 144.496 may bring a civil action and recover damages and receive other equitable relief as determined by
119. the court. Any such action must be commenced within two years after the date on which the buyer closed the
120. purchase or transfer of the real property.

136. with zoning regulations adopted by the governing body that may affect the property. Such zoning regulations are
137. filed with the county recorder in each county where the zoned area is located. If you would like to determine if such

141. H. NOTICE REGARDING CARBON MONOXIDE DETECTORS:

142. MN Statute 299F.51 requires Carbon Monoxide Detectors to be located within ten (10) feet from all sleeping
143. rooms. Carbon Monoxide Detectors may or may not be personal property and may or may not be included in the
144. sale of the home.

145. I. WATER INTRUSION AND MOLD GROWTH: Studies have shown that various forms of water intrusion affect many
146. homes. Water intrusion may occur from exterior moisture entering the home and/or interior moisture leaving the
147. home.

148. Examples of exterior moisture sources may be
149. • improper flashing around windows and doors,
150. • improper grading,
151. • flooding,
152. • roof leaks.

153. Examples of interior moisture sources may be
154. • plumbing leaks,
155. • condensation (caused by indoor humidity that is too high or surfaces that are too cold),
156. • overflow from tubs, sinks, or toilets,
157. • firewood stored indoors,
158. • humidifier use,
159. • inadequate venting of kitchen and bath humidity,
160. • improper venting of clothes dryer exhaust outdoors (including electrical dryers),
161. • line-drying laundry indoors,
162. • houseplants—watering them can generate large amounts of moisture.

163. In addition to the possible structural damage water intrusion may do to the property, water intrusion may also result
164. in the growth of mold, mildew, and other fungi. Mold growth may also cause structural damage to the property.
165. Therefore, it is very important to detect and remediate water intrusion problems.

166. Fungi are present everywhere in our environment, both indoors and outdoors. Many molds are beneficial to humans.
167. However, molds have the ability to produce mycotoxins that may have a potential to cause serious health problems,
168. particularly in some immunocompromised individuals and people who have asthma or allergies to mold.

169. To complicate matters, mold growth is often difficult to detect, as it frequently grows within the wall structure. If you
170. have a concern about water intrusion or the resulting mold/mildew/fungi growth, you may want to consider having
171. the property inspected for moisture problems before entering into a purchase agreement or as a condition of your
172. purchase agreement. Such an analysis is particularly advisable if you observe staining or any musty odors on the
173. property.

174. J. NOTICE REGARDING PREDATORY OFFENDER INFORMATION: Information regarding the predatory
175. offender registry and persons registered with the predatory offender registry under MN Statute 243.166
176. may be obtained by contacting the local law enforcement offices in the community where the property is
177. located or the Minnesota Department of Corrections at (651) 361-7200, or from the Department of Corrections
178. web site at www.corr.state.mn.us.

Seller has not occupied or inspected the property and makes no representations as to the condition of the property.

183. Seller(s) hereby authorizes any licensee(s) representing or assisting any party(ies) in this transaction to provide
184. a copy of this Disclosure Statement to any person or entity in connection with any actual or anticipated sale of the
185. property. A seller may provide this Disclosure Statement to a real estate licensee representing or assisting a
186. prospective buyer. The Disclosure Statement provided to the real estate licensee representing or assisting a
187. prospective buyer is considered to have been provided to the prospective buyer. If this Disclosure Statement is
188. provided to the real estate licensee representing or assisting the prospective buyer, the real estate licensee must
189. provide a copy to the prospective buyer.

190. **QUALIFIED THIRD-PARTY INSPECTION:** If Seller has made a disclosure under the Qualified Third-Party
191. Inspection, Seller is obligated to disclose to Buyer in writing of any new or changed facts of which Seller is aware
192. that could adversely and significantly affect the Buyer's use or enjoyment of the property or any intended use of
193. the property that occur up to the time of closing. To disclose new or changed facts, please use the *Amendment to*

195. **WAIVER:** If Seller and Buyer agree to waive the seller disclosure requirement, Seller is NOT obligated to disclose
196. and will NOT disclose any new or changed information regarding facts.

Radon in Real Estate Transactions

All Minnesota homes can have dangerous levels of radon gas. Radon is a colorless, odorless and tasteless **radioactive gas** that can seep into homes from the soil. When inhaled, it can damage the lungs. Long-term exposure to radon can lead to **lung cancer**. About 21,000 lung cancer deaths each year in the United States are caused by radon.

The only way to know how much radon gas has entered the home is to conduct a radon test. MDH estimates 2 in 5 homes exceed the 4.0 pCi/L action level. Whether a home is old or new, **any home can have high levels of radon**.

The purpose of this publication is to educate and inform potential home buyers of the risks of radon exposure, and how to test for and reduce radon as part of real estate transactions.

Disclosure Requirements

Effective January 1, 2014, the Minnesota Radon Awareness Act requires specific disclosure and education be provided to potential home buyers during residential real estate transactions in Minnesota. **Before signing a purchase agreement to sell or transfer residential real property**, the seller shall provide this publication and shall disclose in writing to the buyer:

1. whether a radon test or tests have occurred on the property;
2. the most current records and reports pertaining to radon concentrations within the dwelling;
3. a description of any radon levels, mitigation, or remediation;
4. information on the radon mitigation system, if a system was installed; and
5. a radon warning statement.

Radon Facts

How dangerous is radon? Radon is the number one cause of lung cancer in non-smokers, and the second leading cause overall. Your risk for lung cancer increases with higher levels of radon, prolonged exposure, and whether or not you are a current smoker or former smoker.

Where is your greatest exposure to radon? For most Minnesotans, your greatest exposure is at home where radon can concentrate indoors.

What is the recommended action based on my results? If the average radon in the home is at or above 4.0 pCi/L, the home's radon level should be reduced. Also, consider mitigating if radon levels are between 2.0 pCi/L and 3.9 pCi/L. Any amount of radon, even below the recommended action level, carries some risk.

Radon Testing

Any test lasting less than three months requires **closed-house conditions**. Keep all windows and doors closed, except for normal entry and exit.

Before testing: Begin closed-house conditions at least 12 hours before the start of the radon test.

During testing: Maintain closed-house conditions during the entire duration of the short-term test. Operate home heating or cooling systems normally during the test. Test for at least 48 hours.

Where should the test be conducted? Any radon test conducted for a real estate transaction needs to be placed in the lowest livable area of the home suitable for occupancy. This is typically in the basement, whether finished or unfinished.

Place the test kit:

- twenty inches to six feet above the floor
- at least three feet from exterior walls
- *four inches away from other objects*
- in a location where it won't be disturbed
- not in enclosed areas or areas of high heat or humidity

Radon Mitigation

When elevated levels of radon are found, they can be easily reduced by a certified radon mitigation professional.

Radon mitigation is the process used to reduce radon concentrations in buildings. This is done by drawing soil gas from under the house and venting it above the roof. A quality mitigation system should reduce levels to below 4.0 pCi/L, if not lower.

After a radon mitigation system is installed perform an independent short-term test to ensure the reduction system is effective. Operate the radon system during the entire test. This test will confirm low levels in the home. Be sure to retest the house every two years to confirm continued radon reduction.

Radon Warning Statement

"The Minnesota Department of Health strongly recommends that ALL homebuyers have an indoor radon test performed prior to purchase or taking occupancy, and recommends having the radon levels mitigated if elevated radon concentrations are found. Elevated radon concentrations can easily be reduced by a qualified, certified, or licensed, if applicable, radon mitigator.

Every buyer of any interest in residential real property is notified that the property may present exposure to dangerous levels of indoor radon gas that may place the occupants at risk of developing radon-induced lung cancer. Radon, a Class A human carcinogen, is the leading cause of lung cancer in nonsmokers and the second leading cause overall. The seller of any interest in residential real property is required to provide the buyer with any information on radon test results of the dwelling".

How are radon tests conducted in real estate transactions? There are special protocols for radon testing. The two most common ways to test are either using a calibrated continuous radon monitor (CRM) or two-short term test kits used at the same time. The short-term test kits are placed 4 inches apart and the results are averaged.

Continuous Radon Monitor (CRM)

Simultaneous Short-term Testing

Second Fastest

All radon tests should be conducted by a certified professional. This ensures the test was conducted properly, in the correct location, and under appropriate building conditions. A list of these radon measurement professionals can be found at MDH's Radon website. If the seller previously conducted testing in a property at or above 4 pCi/L, the home should be mitigated.

2. **ARBITRATION DISCLOSURE**
3. You have the right to choose whether to have any disputes about disclosure of material facts affecting the use or
4. enjoyment of the property that you are buying or selling decided by binding arbitration or by a court of law. By agreeing
5. to binding arbitration, **you give up your right to go to court for claims over \$15,000.**
6. By signing the RESIDENTIAL REAL PROPERTY ARBITRATION AGREEMENT ("ARBITRATION AGREEMENT") on
7. page two (2), you agree to the following:
8. (1) disputes with demands which fall within the jurisdictional limits of the conciliation court shall be resolved in the
9. applicable conciliation court; and
10. (2) all other disputes shall be subject to binding arbitration under the Residential Real Property Arbitration
11. System ("Arbitration System") administered by National Center for Dispute Settlement ("NCDS") and endorsed
12. by the Minnesota Association of REALTORS® ("MNAR"). The ARBITRATION AGREEMENT is enforceable only
13. if it is signed by all buyers, sellers and licensees representing or assisting the buyers and the sellers. The
14. ARBITRATION AGREEMENT is not part of the *Purchase Agreement*. **Your *Purchase Agreement* will still**
15. **be valid whether or not you sign the ARBITRATION AGREEMENT.**
16. The Arbitration System is a private dispute resolution system offered as an alternative to the court system. It is not
17. government sponsored. NCDS and the MNAR jointly adopt the rules that govern the Arbitration System. NCDS and
18. the MNAR are not affiliated. Under the ARBITRATION AGREEMENT you must use the arbitration services of NCDS.
19. All disputes about or relating to disclosure of material facts affecting the use or enjoyment of the property, excluding
20. disputes related to title issues, are subject to arbitration under the ARBITRATION AGREEMENT. This includes claims
21. of fraud, misrepresentation, warranty and negligence. Nothing in this Agreement limits other rights you may have under
22. MN Statute 327A (statutory new home warranties) or under private contracts for warranty coverage. An agreement to
23. arbitrate does not prevent a party from contacting the Minnesota Department of Commerce, the state agency that
24. regulates the real estate profession, about licensee compliance with state law.
25. The administrative fee for the Arbitration System varies depending on the amount of the claim, but it is more than initial
26. court filing fees. In some cases, conciliation court is cheaper than arbitration. The maximum claim allowed in conciliation
27. court is \$15,000. This amount is subject to future change. In some cases, it is quicker and less expensive to arbitrate
28. disputes than to go to court, but the time to file your claim and pre-hearing discovery rights are limited. The right to
29. appeal an arbitrator's award is very limited compared to the right to appeal a court decision.
30. **A request for arbitration must be filed within 24 months of the date of the closing on the property or else the**
31. **claim cannot be pursued. In some cases of fraud, a court or arbitrator may extend the 24-month limitation**
32. **period provided herein.**
33. A party who wants to arbitrate a dispute files a Demand, along with the appropriate administrative fee, with NCDS.
34. NCDS notifies the other party, who may file a response. NCDS works with the parties to select and appoint an arbitrator
35. to hear and decide the dispute. A three-arbitrator panel will be appointed instead of a single arbitrator at the request
36. of any party. The party requesting a panel must pay an additional fee. Arbitrators have backgrounds in law, real estate,
37. architecture, engineering, construction or other related fields.
38. Arbitration hearings are usually held at the home site. Parties are notified about the hearing at least 14 days in advance.
39. A party may be represented by a lawyer at the hearing, at the party's own expense, if he or she gives five (5) days
40. advance notice to the other party and to NCDS. Each party may present evidence, including documents or testimony
41. by witnesses. The arbitrator must make any award within 30 days from the final hearing date. The award must be
42. in writing and may provide any remedy the arbitrator considers just and equitable that is within the scope of the parties'
43. agreement. The arbitrator does not have to make findings of fact that explain the reason for granting or denying an
44. award. The arbitrator may require the party who does not prevail to pay the administrative fee.
45. **This Arbitration Disclosure provides only a general description of the Arbitration System and a general overview**
46. **of the Arbitration System rules.** For specific information regarding the administrative fee, please see the Fee Schedule
47. located in the NCDS Rules. Copies of the Arbitration System rules are available from NCDS by calling (866) 727-8119
48. or on the Web at www.ncdsusa.org or from your REALTOR®. If you have any questions about arbitration, call NCDS
49. at (866) 727-8119 or consult a lawyer.

issued, except for a demolition permit. Call the Department of Safety and Inspections for more information at 651-266-8989.

If this building is located in a historic district or site (noted on page 1, above, just below the property address) then you must contact Heritage Preservation (HPC) staff to discuss your proposal for the repairs required by this order and compliance with preservation guidelines. Copies of the guidelines and design review application and forms are available from the Department of Safety and Inspections web site (see letterhead) and from the HPC staff. No permits will be issued without HPC review and approval. HPC staff also can be reached by calling 651-266-9078.

As an owner or responsible party, you are required by law to provide full and complete disclosure of this "Order to Abate" to all interested parties, all present or subsequent renters and any subsequent owners. The property shall not be sold, transferred; or conveyed in any manner until the Nuisance Conditions have been abated and the Certificate of Code Compliance or Certificate of Occupancy has been issued.

The Enforcement Officer is required by law to post a placard on this property which declares it to be a "nuisance condition", subject to demolition and removal by the City. This placard shall not be removed without the written authority of the Department of Safety and Inspections, Division of Code Enforcement. The department is further required to file a copy of this "Order to Abate" with the City Clerk's Office.

If corrective action is not taken within the time specified in this order, the Enforcement Officer will notify the City Council that abatement action is necessary. The City Clerk will then schedule dates for Public Hearings before the City Council at which time testimony will be heard from interested parties. After this hearing the City Council will adopt a resolution stating what action if any, it deems appropriate.

If the resolution calls for abatement action the Council may either order the City to take the abatement action or fix a time within which this nuisance must be abated in accordance with the provisions of Chapter 33 of the Saint Paul Legislative Code and provide that if corrective action is not taken within the specified time, the City shall abate this nuisance. The costs of this action, including administrative costs will be assessed against the property as a special assessment in accordance with law.
