Think Before You Click: This email originated **outside** our organization.

Ms. Moermond,

Per the email below, the structural report will not be available until the end of April. We have no additional information to report except an application for an additional federal source has been submitted.

Please advise as to our next report and meeting.

Thank you

Lisa Kugler

Rebecca / Lisa –

I have checked on the anticipated testing schedule and concluded that we won't be able to issue a final report by the 18th. We can plan on cutting the steel samples and reviewing the cmu walls next week. The specialty steel testing lab results may take 1 or 2 weeks to complete. The intent would be to issue a final report by the end of the month.

Thanks,

Brad
