We know that if we don't intervene, if we don't do serious reparative justice work in Saint Paul and across this country, that our injustices and disparities will only widen. As a Saint Paul resident and a member of Jewish Community Action, I urge you to establish a permanent reparations group in our city, guided by United Nations principles, and per the recommendations of the Reparations Legislative Advisory Committee. Thank you!

I know that the following statement is written for me but do know that I absolutely support this effort

We know that if we don't intervene, if we don't do serious reparative justice work in Saint Paul and across this country, that our injustices and disparities will only widen. As a Saint Paul resident and a member of Jewish Community Action, I urge you to establish a permanent reparations group in our city, guided by United Nations principles, and per the recommendations of the Reparations Legislative Advisory Committee. Thank you!
