Think Before You Click: This email originated outside our organization.

Good morning, Mai,

This is a narrative of the steps I took to notify the City of St. Paul Snow Removal Assessment done last January 2022, that we have a paid snow removal service throughout the snow season. We removed snow on our own side of the sidewalk in each occurrence.

There was a letter notifying the building owners on University Avenue to remove snow.

Immediately I received that letter I called this number 651-266-8989 and told the lady on the phone that our building is in the middle of two other buildings, and we have a paid snow removal service. We remove our portion, and, in most cases, we get snow blowing from theirs to our own.

The lady on the phone said if we remove our own part of the snow, that we should not worry about the other buildings. I told her that we do get snow blowing from theirs to ours.

When the current later came from the City of St. Paul, I also called and was transferred from one department/office to the other. Finally, I talked to Mr. Richard Kedsodski from the Department of Safety and Inspection. Richard referred me to the City Clark's office where I talked to Racqle and demanded the videos.

If I knew what else to I could have done further to get my own side of the story heard I could have done it. I believe in justice.

Eventually, I am now talking to Ms. Mai Vang who said "The hearing officer is going to review this next Tuesday and see if it's necessary to have hearing. I will let you know after Tuesday." Mai has been making effort to get a hearing and get this issue resolved.

We have been on the University Avenue for 30years and more. We have never had issues like this.

Please look into this issue and resolve it.

Thank you.

Stella,

The hearing officer is going to review this next Tuesday and see if it's necessary to have hearing. I will let you know after Tuesday.

Thank you,

Mai Vang

Hi Mai Vang,

Thank you for the video. It looks like the area with snow was not removed was not our own area as shown here. The second video showed it when it was removed. There was no snow in the other video that we can see. We also have our camera showing that the snow was removed by our paid service.

Please review one more time. We have paid snow service we that use and the snow service can be a witness as well.

Thank you.

Stella Nwaiwu

Hello Stella Nwaiwu,

Attached are order and photo issued and taken by the inspector for a snow clean up on January 23, 2023. Letters sent 1/9 with a compliance date of 24 hours after most recent snow fall. Inspector rechecked on 1/13 and found compact ice

and snow, not full width and no salt or sand. Orders went to the addresses in the Orders. There were no returned mails. I will send videos separately as the files are large. Please note the videos do expire within certain date. Since no one appealed and Council already adopted the resolution as is, you will need to appeal further in District Court. The steps to appeal further is in your invoice.
