Brendan >

Okay I will send this along and ask Doug to contact you

I just finished talking to Ann, the fire marshal that came by for the inspection. She said all that is needed left is the permit submitted with the contractor & architect information

Today 12:17

9/25

Update: We are heading to the city council tomorrow to appeal the condemnation of the store so we can open while still applying the permit for the door. We've lost a lot of income being closed this past week & would like to reopen asap

I have been in contact with KA and have requested them to call you

Awesome, thank you

Thank you I have forwarded it

Friday 12:30

We just had sentry systems come by again and look at the electrical wiring for the door & everything seems good. Is there any updates from your end?

9/15/23

They need to document the work they did. Is there anyway they can draw a wiring diagram of the door to the security system? They will need to come back and show the fire marshal that it works when the alarm goes off as well

Friday 13:42

Yes there is a diagram of the wiring of the door thats linked to the security system. Earlier today, we had a different fire marshal come in with sentry where they demonstrated that the door works when the alarm goes off

No worries. Just remember if they didn't pull a permit it doesn't matter

Appreciate the follow up

I'll let you know the electrician's info once I get it

Please let me know when another good time to chat is. I have a few pieces of information I need from you guys.

Right now is good for me!

Tuesday 13:55

Hi sorry for the long wait. My dad is trying to reach the electrician that worked on our door for his english name, so we are still waiting on that

2 Replies

Lester Meissner is the technician from sentry systems that works with us.

Sentry systems also told me that, they are working on pulling the permits for the door as well (?) & are waiting for a response from the city

Hi there! Checking in to see if there is any updates so far?

Unfortunately this fire marshal only answers calls at a certain time and my office doesn't work wknds. I don't have an update at this time. If you want to call the fire marshal who is listed please do. Or you can email her as well.

ail me at: [Laura.Huseby@ci.stp](mailto:Laura.Huseby@ci.stp)  
:00 a.m. Please help to make

Laura is the one who condemned the store

Hi Brendan, these are all the documents that my father have sent me

Thank you I'll keep you updated

I though they took care of some of the other items not related to the door replacement

\*thought

It looks like they got this letter Aug 18th as well
