Hello,

Pre request by Marcia Moermond, I have sent over additional photos of the entrance door to Apt. #3. I would like to know which locks are in question, in order for us to correct the item. The exterior door has the same locking mechanisms which are on all four apartment door entrances. I am not sure if James is referring to the second door when entering apartment #3. The second door has the original door knob and a skeleton key hole and this door is never locked. We do not have the skeleton key which could lock the second door.

Please see the attached pictures and I look forward to hearing from you regarding this matter. If you have any questions or need additional information/photos please let me know.

Have a Merry Christmas and thank you,

Gayle and Michelle Markovich
