Subject:	2024 Mill and Overlay - Cretin/Bayard Area, Phase 2
Date:	Saturday, June 1, 2024 11:51:16 AM

Hello, I am writing in regard to the mill and overlay project for which we have been notified via letter. While I am for regularly scheduled maintenance and improvements, I do question the financial responsibility of a recent sealcoating effort (for which we were assessed in early 2022), only to mill/overlay in 2024. According to a brief search, sealcoating should last 2-5 years but I'm not seeing a sealcoating assessment in the previous 8 years we've lived here so I'm guessing we push it longer (unless I'm missing other longevity efforts or have a gap in my record-keeping).

If the City indeed pushes sealcoating of roads to beyond what I'm finding on the internet, I'm fine with that but it seems we don't need to do one just 2 years before, what I'm assuming, is a well-in-advance scheduled mill/overlay.

Thank you for your time,

Ben and Claudia Root
