Yeah. My name is Jenny Pearson, 1959 4th St. E I'm calling about the road work that's going to be done on our street that you're trying to charge us $969 for. Well, I obviously I didn't get my call in time, but it better matter because I object to it. I pay enough taxes at this city to not. We shouldn't be having to pay for our street too. I'm watching you guys put up millions of dollars New bus line down here that's going to be a flop and you're charging us $960.00 for 60 * 16 feet. I don't even own the street. That's the cities. I pay taxes for it. I do not. We should not have to be paying this. So again, I object and this is ridiculous. I pay a lot of taxes towards a lot of stuff that I shouldn't even be paying for. You guys get federal funding for roads? Well if you make us pay this then I have a right to say who parks in front of my house. OK, so you already got funding for it and you still want to rip US taxpayers off already? So I object. You can call me back 651-323-8087.
