375 Jackson Street, Suite 220
Saint Paul, MN 55101-1806

Good morning Mr. Fischbach

As owners of The Blue Door Pub, we are interested in adding the Sidewalk Café license to our existing licences. In the future, we may pursue adding wine and beer service to an outdoor patio, but until that is granted, we will have absolutely no wine or beer sales, service, or consumption outside of our restaurant. The façade of our establishment is dominated by six large windows, providing an exceptional amount of visibility to our sidewalk and immediate outside environment, and our bartenders have a clear view of sidewalk activity almost continually. This will help monitor that no patrons will carry their wine or beer outside, as well as postings on the door that it is prohibited to bring alcoholic beverages outside. Our entire front-of-house staff is also on high alert to manage this responsibility. As the weather turns for the better and our dinner crowds swell, we have already had tremendous success in making sure that no people waiting for a table bring their beverages outside.

Furthermore, we will have no food preparation taking place on the sidewalk or anywhere outside of our current kitchen. Once we are closed, then, our staff will bring the tables and chairs inside our restaurant daily. We encourage you to contact us with any further questions, suggestions, or clarifications and thank you for your time.

Sincerely,

Patrick McDonough and Jeremy Woerner
