Subject: File #J2409P assessment # 248408

I'm replying to the notice, I will contest this. I did have a conversation with your office back in April or May, regarding this matter and was assured it was an error on your part suggesting your crew removed graffiti on my building, I removed it personally the building next door your crew did paint over the wood siding to cover graffiti. (8 feet away from my building)My building is soft brick and requires special removal skills which I did not have you perform. I did it personally, I will contest this at the legislative hearing and if needed go to the city council public hearing to contest this matter.
Please call or reply to confirm status.
