You don't often get email from gustheskier@yahoo.com. Learn why this is important

To Whom It May Concern:

My wife Marilyn and John "Gus" Bjorklund strongly endorse approval of the Rayn Company's request for recent variances, to the area near the Cretin/Ford Parkway intersection. Our reasons include less density and added aesthetic value.

We lived very near this site for almost 60 years and have greatly enjoyed living at Marvella for the past 26 months. What Highland Bridge has added to the neighborhood is fantastic. Granting those variances will make it even better.

Sincerely,

Gus Bjorklund cell:651-341-8016
