You don't often get email from njmcguire1@gmail.com. Learn why this is important

I'm writing to ask why my home at 2021 Fremont Ave E may be included in a special assessment charge for the above subject when my home does not face Ruth St? I have heard that residents are not responsible for Mill and Overlay for Snow Emergency Routes. If we are could you send me the information showing this.

My property ID #35-29-22-13-0127.

I received a notice that the hearing for this is November 5, 2025 and I will be billed if the assessment is approved after this date.

Thank you.
