You don't often get email from ljmagistad@gmail.com. Learn why this is important

Hi!

I live two blocks from the CVS. I walk or drive past it regularly. I constantly wonder when something better will go in and hope it can be a place I am able to spend time. We need a grocery store or a repair cafe or a city and county service center. We need to make this highly accessible space a place we all want to be.

I believe the best course is to demo it unless it can be rehabilitated into a new use.

Best wishes,
Liam
