Mr Copeland,

I am sorry to tell you that your request for an extension has been denied. Unfortunately, your e-mail wasn't received until after the deadline to comply had expired and, also, after the work order to begin City trash service had been executed. The City trash containers will remain on site until we receive confirmation and verify that you have weekly trash service with a licensed hauler.

Sincerely,

Edward Smith
City-Wide Case Manager
City of St Paul
Department of Safety and Inspections

Mr. Smith:

I would like to request your reconsideration of my request for an extension of time to comply with your order. I sent a timely request for additional time to the Department on April 27, which was the deadline date in the letter I got on Saturday April 23. I simply need an additional three or four days to get the service set up with a vendor.

Thank you,

Eugene G Copeland

Mr Copeland,

DSI has denied the request for an extension. You will need to get the trash service set up immediately and supply the account information to DSI, so that the department can verify that an account has been set up and a trash container has been delivered.
