Subject: Proposed Crypto ATM Ban
Date: Monday, November 17, 2025 2:02:57 PM

You don't often get email from ron@rbwlive.com. Learn why this is important

The Honorable St. Paul City Council,

I would like to take this opportunity to speak to the proposed Crypto Currency ATM ban. It is my feeling that these particular ATM machines do not serve the public interest in any way. In fact, they are detrimental to the public good. They serve only as a vector for defrauding the public through various crypto scams. I am decidedly in favor of banning Crypto ATM machines in St. Paul.

Anyone sophisticated enough to be trading crypto can already do so via their home computer. There is no need (except perhaps to enrich the owners and hosts) for crypto ATM machines in St. Paul.
